B O S T O N, Octob. 4.

From the Votes of the Hon. House of Representatives, Sept. 24.

MR. Cushing from the Committee appointed the 20th current, to prepare an Answer to the Message of his Excellency the Governor, of the 19th current, reported, that the Committee had prepared the same, which he read in his Place, and then laid it on the Table.

Read and accepted, and thereupon Voted, That the following Message be sent to his Excellency the Governor, viz.

May it please your Excellency,

THIS House received your Message of the 19th Instant, and having maturely consider'd it, beg Leave in Answer to observe,

That they have a just Sense of his Majesty's great Wisdom and Care for the Safety and Protection of his Subjects; and that a War will greatly affect the Commerce and consequently all the Estate and Interest of this Province.

Your Excellency may therefore be assured, this House, from a Sense of their Duty to his Majesty, and from a tender Regard to the Welfare of the People they represent, will do all incumbent on them for putting the Metropolis, and all other our Frontiers, both by Sea and Land, into a proper State of Defence.

This House are sensible, that the defenceless State of the Fortifications and Garrisons has at sundry Times been mention'd by your Excellency to former Assemblies, as now to this.

But neither the late Assemblies, nor this present, might raise Moneys to fortify the Country, unless they would impose Taxes on their People in such a manner, as to make their Burthen insupportable. And we must needs observe, That for your Excellency to recommend it to this People, that they be strong and in a State of Safety, and at the same Time, to deny them the Means, is rather to aggravate their Distress than relieve it.

At the last Session, this House granted a full and ample Supply for the Support of Government, which was readily concurred by the Honourable Board; The Representative Body, who are the most proper Judges in the Matter, were very unanimous, that the Burthen already laid on this and the two succeeding Years, are equal, if not beyond the Peoples Ability; and the two Houses in their Message to your Excellency of the sixth of July last fully declared, that should the Moneys raised for the Service of the Government, be laid on the Years preceeding One Thousand seven Hundred and Forty-two, it would bring on the greatest Oppression on Multitudes, Stagnation of our Trade, and the terrible Consequences of publick Confusion. Notwithstanding this was the Sense of both Houses, your Excellency in your Message to us in Answer, was pleased to say, "That no one could imagine it necessary that the Fund for drawing in the Bills to be emitted for Service of his Majesty, and the Defence of His People, should be

extended beyond the Year One Thousand Seven Hundred and Forty one;" and your Excellency refus'd your Consent to the Bill of Supply then presented. Who is the Occasion of this Calamity of an empty Treasury? Whether it is owing to your Excellency, or this House, we doubt not the whole Body of this People by this Time are fully satisfied.

The House are sensible that before the Court was last prorogued, the publick Treasury was near exhausted; and we cannot but observe, that it was done in some Measure in a Way whereby the Intention of the Court, as to their appropriated Moneys, was perverted; and we apprehend such a Procedure has a direct Tendency to destroy that mutual Harmony and Confidence among the several Branches of this Legislature, which is recommended by your Excellency, and which this House are so very desirous to maintain.

There being little or no Money now in the Treasury, and this House well knowing that there will be probably soon required a large Sum there; and that every Supply must be the free Grant of the Representatives, and consequently originate with them (tho' your Excellency is pleased to apply to the Council and House equally for that Purpose) they have at their first Sessions prepared and passed a large Supply of *One Hundred and five Thousand Pounds*, which they apprehend sufficient not only for putting the Province into a Posture of Defence, and purchasing all necessary warlike Stores, but for defraying the current and ordinary Charge of the Government.

This House cannot imagine, that your Excellency should think, that the Sum now supplied, together with the large Sums which it's probable will be needful for His Majesty's Service and the Defence of his People, can be all drawn in by the Year *One Thousand seven hundred and forty one*. Therefore we have just Reason to expect from your Excellency's repeated Declarations, since his Majesty's People of this Province are now groaning under heavy Burthens and distressing Difficulties, your Excellency has had such a Regard to this People, whom GOD in his Providence, and the KING, have committed to you, that your Excellency has taken such reasonable Care in order to your exercising those Powers which are granted to the Governor of this Province by the Charter and his Commission, that your Excellency will give your Assent to a Bill for supply of the Treasury, when it shall be laid before you.

The House of Representatives beg Leave to assure your Excellency, that while they inflexibly adhere to the just Rights and Liberties of their Country, they will do all in their Power to promote Concord among the several Branches of the Legislature, that so with united Strength they may promote the King's Honour and their People's flourishing State.

And this House apprehend they can't better express their Duty, nor more effectually recommend themselves and People to the Favour of their rightful Sovereign, than by freely granting sufficient Supplies for the Protection and Defence of his People, agreeable to their Charter Rights, as we have now again done.

On Friday last the Hon. House of Representatives made Choice of Mr. Thomas Cushing, jun. their Agent to appear at the Court of Great Britain, to represent to His Majesty the great Difficulties and Distress the People of this Province labour under, by reason of their being prevented from raising the necessary Supply for the Support of the Government, and the Protection and Defence of His Majesty's Subjects here.

And on Tuesday last the House came into a Vote, That Mr. Christopher Kilby be directed and empowered to appear at the Court of Great Britain, as Agent of the House of Representatives in case Mr. Agent Cushing should decline serving.

We hear the Bill for supplying the Treasury with One Hundred and Six Thousand Pounds, having pass'd both Houses to be engross'd, pass'd yesterday in the Forenoon to be enacted by the House of Representatives.

We hear also, that the House have appointed a Committee to be join'd to such as the Honourable Board shall appoint, to project and prepare some proper Method for the more effectual prosecuting and convicting such as counterfeit the Bills of Credit of the neighbouring Colonies.

WILLIAMSBURG, Octob. 15.

They write from Charlestown, in South-Carolina, that eleven of the Chief Men among the Catawba and Cherrokee Indians, lately came there, to pay a Visit to his Honour the Lieutenant Governor; and inform'd him, That some Time since, a Party of their People went out to War, and not meeting with their Enemies, had cut off a White Family on the Borders of Virginia: That upon Complaint made to them of the said barbarous Murder, they examined into the Fact, and had put Five of the Ring-leaders to Death; and that they were determined to prosecute, in the same rigorous Manner, any of their People, who for the future should be found guilty of the like cruel Practices. They met with a kind Reception from his Honour the Lieutenant Governor; and having received the usual Presents from the Country, they return'd home well pleased and contented.-----It's suppos'd, these are the same Indians that waited on His Honour our Governor, this Summer, to inform him of the same Facts. They were kindly receiv'd, and handsomely treated here; and went away well pleas'd.

We hear from North-Carolina, That a considerable Party of Indians from the Norward, were marching on their Frontiers towards the Southward, and that they said they were to be follow'd by a great Body of Indians, and some Frenchmen from Canada; who they said were going to War with the Southward Indians. This Party stop all Persons they meet with, travelling to the Southward, to prevent their Enemies being inform'd of their Approach; but they do not offer to rob or hurt the Persons they stop. It's very probable these are the Indians and Frenchmen, and this the Expedition, of which his Honour our Governor some Weeks ago receiv'd Advice from the Governor of New-York; and which he was pleas'd speedily to communicate to the Governors of North- and South-Carolina, by Express.
